

Office of Tourism

Wyoming is home to many firsts – Yellowstone, the nation’s first National Park; Devils Tower, the nation’s first National Monument; and the first U.S. National Forest, Shoshone. Along with these firsts, Wyoming is also home to Grand Teton National Park, which may be found just South of Yellowstone. The jagged peaks of the Teton Mountains rise nearly 14,000 feet (4,267 meters) into the vast blue sky.

Devils Tower National Monument

Grand Prismatic Spring- Yellowstone

In Yellowstone, the 10,000 thermal features offer a truly unique experience. Waterfalls spill over the sides of a gigantic caldera that traces the edge of an ancient volcanic eruption. Between Yellowstone and Grand Teton National Parks, you will find an array of wildlife including bison, elk, wolves, grizzly and black bears, eagles and more. Throughout the state, moose, coyotes and deer flourish.

American Bison- Yellowstone

In addition to the natural beauty of Wyoming, it is also known as the “Cowboy State”, where you can see wild horses running free on plains of sagebrush and tumbleweeds. Visit canyon lands that sheltered legendary outlaws like Butch Cassidy and the Sundance Kid. Watch rodeo cowboys ride bulls and bucking broncos, or discover the magic of quiet nights and skies sparkling with stars.

Thermopolis Hot Springs State Park

Visit the “year-round mountain town” of Casper; soak in the hot springs of Thermopolis and Saratoga; experience Native American Culture in the Wind River range; take in the state capital of Cheyenne; or simply go for a scenic drive through the Big Horn Mountains.

After visiting Wyoming, you’ll understand how some things can’t be explained, only experienced.

CLIMATE

Wyoming consists of high plain plateaus, mountain ranges, and desert land, with elevations ranging from 3,125 feet (953 meters) to nearly 14,000 feet (4,267 meters). Average summer temps are around 85 Fahrenheit (29 Celsius) with a winter average is around 10 Fahrenheit (-14 Celsius). Wyoming offers more than 65% of sunny days and blue skies throughout the year.

TRANSPORTATION

Interstate 80 runs east/west across the southern part of Wyoming. Interstate 90 runs east/west through the northern region. Interstate 25 runs north/south through the state. Each route offers easy access to major airline hubs such as Denver and Salt Lake City.

Air service into Wyoming includes flights from the gateway cities of Atlanta, Chicago, Dallas, Denver, New York City, Los Angeles, and Salt Lake City. United, Delta, and American Airlines offer nonstop air service to a variety of Wyoming towns.

SCENIC BYWAYS

Nothing compares to a Wyoming road trip. The Rocky Mountains and the High Plains meet in Wyoming, resulting in stunning views in every direction. Wyoming has 21 scenic byways that twist, turn and climb through some of the state's most breathtaking landscapes. Plan a drive along these Wyoming roads to immerse yourself in wild beauty and western history.

Looking for a truly breathtaking experience? Drive the Chief Joseph Scenic Byway. Located in northwest Wyoming, this scenic drive begins near Yellowstone National Park's eastern border and travels southwest through Shoshone National Forest and the Absaroka Mountains. The 47-mile drive boasts prime wildlife viewing and outdoor recreation opportunities to those who stop along the way.

CLOSE ENCOUNTERS WITH A SPIRITUAL LANDMARK

Whether you believe in extraterrestrials or you're certain Area 51 is nothing more than an Air Force facility, there's no denying that Steven Spielberg's Close Encounters of the Third Kind is a cult classic worthy of note. But in a cinematic world filled with special effects and manmade facades, the thing that made this film stand out was a landmark crafted by none other than Mother Nature.
